The main object in deputing Mr. Parthasarathi to England was to let him specialise in Bacteriology and allied subjects. He has had full instructions from me in regard to his advanced course in Bacteriology, Toxicology, Serum Therapy and Vaccine Therapy and, I believe, he is undergoing the course. The D.P.H is merely a side attempt and as sitting for this examination does not involve much study for a Diplomate in Sanitary Science of the Madras University, there appears to me to be no objection in giving him the permission he asks for.
